Taylor and Francis (<u>http://journalsonline.tandf.co.uk</u>)

Taylor & Francis is the oldest commercial journals publisher in the world, and one of the leading global academic publishers. Taylor & Francis is part of the Academic Division of Informa plc. Informa plc is the leading provider of specialist information to the global academic & scientific, professional and commercial communities via publishing, events and performance improvement. It provides access to 1200 journals, 5,000 encyclopedia articles and database products from Taylor & Francis, Routledge and Psychology Press. It covers various topics like Business, Management and Economics, Chemistry, Education. A user can access 1105 journal from Informa plc.

Browse

A user can browse journals by publication title, or by subject. Select an option from the top right of the screen.

Browse by Journal title:

To view all journals beginning with "S", select the "S" from the alphabetical list. Select any publication name to view more about the title.

Browse by subject:

To view all journals in a subject, select the subject name. Further sub-categories will be displayed. Continue making selections, and journals list of a particular subject will be listed.

Screenshot given below displays the list of journals beginning with "S". To view content of journal, Click at the journal name

After clicking at journal name, a user can get homepage of journal. It contains list of volumes with issue number of journals. A user can select volume and issue number of interest. Navigation bar contains latest issue and forthcoming issue of a journal

Screen shot given below displayed table of content of selected issue. Select desire option from drop down menu to save selected list, to add selected list in shopping cart or download citation. Click on title to view abstract page of particular article.

Search

The advanced search can be accessed by selecting the Advanced Search link in the top right of the page. The advanced search page allows a user to create an explicit search. A user can enter multiple search terms, and define the field in which he/she wants to look for the term. A user can use Boolean operators to build up search expression.

Limit Search to one subject area

Example: search for Thermodynamics, limited to titles in engineering and technology

Step 1: Enter Thermodynamics into the first field.

- Step 2: Using the drop down selector, choose Article/Chapter Title.
- Step 3: Select add subject to list. Pop-up window opens.
- Step 4: Select Engineering and technology from the Main Subject drop-down.
- Step 5: Select **chemical engineering** from the sub-subject drop-down.
- Step 6: Select add selected subject to list
- Step 7: Select last 6 month from drop down menu in date published section
- Step 8: Click on Search

To remove all subject limits, deselect the tick box Limit to the following subjects.
