Tata Institute of Social Sciences MUMBAI

Web OPAC

Networked Library System for All Campuses

Library has implemented complete automation in its operations and services. It uses an Open Source Networked Library Management System Koha. With this, all four campus libraries have been brought on a single platform. This initiative has been received very well by users across all four campuses, with over a million searches since 2018.

- **Online Catalogue:** Most accessed tool from among all library services.

- Consistently clocking 2 lakh searches every year.

- **Virtual Shelf :** Browse Collections Online to discovery books on a subject

- **Single interface** to search multiple campus library catalogues

- Developed using Open Source Library Management Software Koha

- Basic and Advanced Search to suit all users

- **Web Based Service:** Users can manage their library account online(View/Manage loans, Renewals, Recommend Books, Save Searches, etc)

- View/Print/Download/Export references selected from Catalogue

- Enhanced Efficiency and economical operations central server is managed at Mumbai campus.

- **Enhanced Visual Experience:** Virtual "New Arrival Shelf" and "Collection Browsing"
