# Academic Programmes

## Centre for Library and Information Management Studies

Sir Dorabji Tata Library at TISS has developed its reputation of being the progressive library system with its several capacity building activities. In 2011, Centre for Library and Information Management Studies was established in Library to offers its academic programmes. Presently library offers following programmes.

- ***PG Diploma in Digital Library and Information Management:*** Launched in 2010, this One Year, Dual Mode PG Diploma will have two semesters. Each semester will have 3 weeks of contact classes and 15 weeks of off-campus classes through e-learning module. The contact classes will be conducted at Main campus, Mumbai and consists of lectures, tutorials and laboratory sessions. Every year we admit 25 students. Currently , 6<sup>th</sup> batch is pursuing the programme.
- ***Master of Library and Inforamtion Sciences (MLIS):*** After observing that PG Diploma has been received well, the plans were initiated to introduce the master's programme. This fulltime master's programme (66 credits) is being offered from 2013 with a batch strength of 15 seats. The admission process for fourth batch is underway. It comprises of 66 credits in the form of 20 core courses including 1 internship and a dissertation. With so much of thrust being given to education at all levels: primary, secondary and higher education, there is a huge demand for professionally well qualified librarians who can handle the integration of ICT and learning resources in this new digital environment. So the possibility of employment is encouraging.
- ***Doctor of Philosophy (PhD):*** In 2012, direct PhD programme in Library and Information Science was launched. The programme received an overwhelming response from the librarians and information professionals working in NGOs, School libraries, academic and research institutes/ university libraries, etc. Currently 22 scholars are pursuing research. Centre has 3 Research Supervisors and the areas of research are Knowledge Society, Information Seeking Behaviour, Information Access and Services, Information Organization, e-resources, Digitization, Collection Building in Digital Library, Information and Digital Literacy, and other emerging areas in the discipline of LISc.
