

Sir Dorabji Tata Memorial Library  
Tata Institute of Social Sciences MUMBAI

# ***Liasion Librarians***

## **Research Support Services**

Library is happy to announce a new learning, research and teaching support service “***Liaison Librarians***” for each school. This is done with an intention to provide effective academic and research support to the faculty, research scholars and student community.

### **Why TISS needs School/Subject Specific Library Staff?**

Subject Librarians provide a range of services which focus on a particular area or discipline. In this capacity, the subject specific library staff will serve as liaisons between the Library and schools, initiate the selection and acquisition of materials for the collections, provide subject-specific instruction in the use of information resources, and provide reference service in general and specialized research areas .

Some of the benefits of having Subject wise / School Liaison Librarians are:

- Conduct Orientation/awareness programmes for specific research areas about e-resources
- They will be user’s personal guide to the services and collections of library
- They will be available for research consultations, class instruction sessions
- They are the staff to contact with suggestions for collection development.
- They are the Library's information specialists within their subject areas.
- Reference queries are handled by a thoroughly knowledgeable library staff.
- Referral Services from other institutes and universities in India and abroad
